Noida, India | Open to Pan India | Immediate Joiner

SUMMARY

Software & AI Engineer with **2 years** of production experience building Node.js backends, Next.js frontends, and LangGraph AI pipelines – shipping systems that handle **50K+ daily requests** at **99.9% uptime**. Ranked **239th in India** at Google Hash Code 2024 (11,000+ participants).

EXPERIENCE

Software Engineer | Scaliqalgo, Remote *September 2025 – April 2026*

- Built multi-tenant Node.js platform on AWS EC2 with BullMQ queues, Redis pub-sub/locking, and PM2 clustering; engineered RESTful APIs across 3 Razorpay billing tiers sustaining **99.9% uptime** at 10K+ monthly requests.
- Developed LangGraph multi-model AI agent workflows with MCP Server orchestration and LangSmith observability; connected Gemini and OpenAI to automate **40%+** of client workflows.

SDE Intern | Innovaccer, Noida *March 2025 – June 2025*

- Built Node.js microservices with RESTful APIs, Redis caching, Nginx, and PostgreSQL query tuning; cut P95 latency from **10s to 300ms** across 50K+ daily requests, automated CI/CD via GitHub Actions, and raised test coverage from **20% to 85%** via Jest/Supertest.

Undergraduate Researcher | Amity University, Noida *June 2024 – July 2024*

- Reached **95.12% accuracy** on 76K+ images using a custom CNN with transfer learning; deployed on-device via TensorFlow Lite and Flutter.

PROJECTS

CastIQ – AI Learning Platform | [Live](#) | Node.js, Next.js, MongoDB, Redis, BullMQ, Kafka, AWS EC2/S3

- Deployed on AWS EC2 with Nginx; BullMQ async job processing and Redis TTL caching cut repeat-request latency by **70%**; Kafka-driven pipeline serves **650+ users** and **12 paying customers** at sub-300ms response.

QuantumDoc – Agentic RAG Platform | [GitHub](#) | Next.js, Node.js, LangChain, LangGraph, Pinecone, Redis

- 3-phase RAG pipeline (BM25 + semantic retrieval, self-critique, refined answer) with PII/toxicity guardrails across **19+ LLM providers**; sub-80ms vector search at **85%+** context precision via RAGAS.

SyntaxMeets – Collaborative IDE | [GitHub](#) | Node.js, Socket.IO, Redis, Nginx, Docker, Kubernetes

- Real-time IDE using Socket.IO over Redis pub-sub with Nginx WebSocket proxying; Kubernetes HPA handles **300+ concurrent sessions** at sub-50ms sync latency.

oss-ratelimit – npm Library | [GitHub](#) | Node.js, TypeScript, Redis

- Distributed rate limiting library (Fixed Window, Sliding Window, Token Bucket) via atomic Redis Lua scripts; supports Express, Node.js, Next.js – **400+ weekly downloads** on npm.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, SQL

Backend: Node.js, Express.js, RESTful APIs, GraphQL, WebSockets, Microservices, JWT, OAuth 2.0

Frontend: React.js, Next.js, Redux, Tailwind CSS

Databases & Messaging: PostgreSQL, MongoDB, MySQL, Redis, Kafka, RabbitMQ, BullMQ

Cloud & Infra: AWS (EC2, S3, SQS, Lambda), Docker, Kubernetes, Nginx, GitHub Actions, CI/CD

AI / GenAI: LangChain, LangGraph, MCP Server, RAG Pipelines, LangSmith, Pinecone, RAGAS

CS Fundamentals: Data Structures & Algorithms, System Design, LLD, HLD

EDUCATION

IMS Engineering College, Ghaziabad, UP

B.Tech, Computer Science Engineering

2022 – 2026

GPA: 8.6 / 10.0

ACHIEVEMENTS & CERTIFICATIONS

- 2nd Prize – HACK-A-THON 2K25**, IMSUC Campus Hackathon, Ghaziabad (500+ participants, 2025).
- Ranked **239th in India** among 11,000+ participants – Google Hash Code 2024.
- Deep Learning Certification** – NVIDIA Deep Learning Institute (2024).
- Solved **300+** LeetCode problems; Global Rank **1,847** (Biweekly 151) and **2,134** (Weekly 438).
