

UJJAWAL SHARMA

Software Engineer & AI Engineer | Node.js · NestJS · Next.js · LangGraph · AWS · Redis

+91-9634277998 | ujjawalsharma120804@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Noida, India | Open to Pan India | Immediate Joiner

SUMMARY

Full Stack & AI Engineer with hands-on experience building and shipping **AI-powered products** — from **RAG pipelines** and **multi-agent workflows** to production **MERN** applications handling real user traffic; focused on designing systems where **LLMs solve real problems**, not just demos.

EXPERIENCE

SDE Intern | Vidhyant Infosystems, Noida

June 2025 – August 2025

- Architected and shipped full-stack features across **5+ production applications** using the **MERN** stack, reducing API response times by **40%** through query optimisation and caching strategies while maintaining **99.9%** uptime; mentored **25+ students** in end-to-end development, with **80%** securing internships within 3 months.

Software Engineer | Scaliq, Remote

September 2025 – April 2026

- Engineered a multi-tenant **Node.js/NestJS** platform on **AWS EC2** with **Redis** pub-sub, **BullMQ** job queues, and **PM2** clustering sustaining **99.9% uptime** across 10K+ monthly requests; built **LangGraph** multi-agent workflows with **MCP** tool orchestration, **LangSmith** observability, and **Gemini/OpenAI** integration — automating **40%+** of client operations.

Undergraduate Researcher | Amity University, Noida

June 2024 – July 2024

- Trained a custom **CNN** with transfer learning and attention mechanisms achieving **95.12% accuracy** on 76K+ images; optimised model for **on-device inference** via **TensorFlow Lite** and **Flutter**, reducing cloud dependency and cutting inference latency by **60%**.

PROJECTS

ParkZen – Smart Parking Management System | *React.js, Node.js, Python, OpenCV, TensorFlow Lite, REST APIs*

- Deployed a real-time parking intelligence platform with a custom **CV model** achieving **93%+ slot detection accuracy** across 500+ spaces; built an admin dashboard with live occupancy feeds, reducing manual monitoring overhead by **70%**.

LexAI – Legal RAG Assistant | *Python, LangChain, FAISS, OpenAI, Gemini, FastAPI, React.js*

- Built a **Retrieval-Augmented Generation** pipeline over 10K+ legal documents using **FAISS** vector search and hybrid chunking strategies, achieving **87% answer relevance** on domain benchmarks while cutting legal research time by **60%**.

ResumeSync – AI Resume Tailoring Engine | *Next.js, Node.js, OpenAI, LangChain, L^AT_EX, PostgreSQL*

- Engineered an **LLM-powered** pipeline that parses job descriptions and autonomously rewrites **L^AT_EX** resume sections for ATS alignment, reducing manual tailoring time from **45 mins to under 2 mins** with **90%+** keyword match accuracy.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL

AI / GenAI: LangChain, LangGraph, RAG Pipelines, MCP Server, LangSmith, FAISS, Vector Databases, RAGAS

Backend: Node.js, NestJS, Express.js, REST APIs, WebSockets, Microservices

Frontend: React.js, Next.js 14, Tailwind CSS

Databases & Infra: PostgreSQL, MongoDB, Redis, Docker, Kubernetes, AWS (EC2, S3, Lambda), GitHub Actions

EDUCATION

IMS Engineering College, Ghaziabad, UP

2022 – 2026

B.Tech, Computer Science Engineering

GPA: 7.5 / 10.0

L.N. Public School, Hapur, UP

2019 – 2021

Intermediate

78/100

Secondary

84/100

ACHIEVEMENTS & CERTIFICATIONS

- 2nd Prize** – HACK-A-THON 2K25, IMSUC Campus Hackathon, Ghaziabad (500+ participants, 2025).
- Ranked **239th** in India among 11,000+ participants – Google Hash Code 2024.
- Deep Learning Certification** – NVIDIA Deep Learning Institute (2024).
